

Division of Particles & Fields Activities

Chris Quigg
DPF / Fermilab

High Energy Physics Advisory Panel

LEPP · Cornell University · August 5, 2002

Snowmass 2001 Proceedings

- ▷ CDs produced, in the mail
- ▷ Hearty thanks to **SLAC** and Editor Norman Graf
- ▷ Working Group summaries provide a marvelous survey of the many opportunities before us.

Thanks to all who worked so energetically after Snowmass to prepare this record of where we stand and where we can go.

New DPF Activities

- ▷ *What does DPF do? What should DPF do?*
(Carithers) Committee \rightsquigarrow report (handout)
<http://www.aps.org/dpf/report.html>

New standing subcommittees “will collaborate with DOE, NSF, and the APS ...”

- ▷ Education and Outreach Subcommittee
- ▷ Government Liaison Subcommittee
- ▷ Enhanced web sites for DPF, QUARKS**UNBOUND**

Recent Meetings

- ▷ APS April Meeting (Albuquerque)
 - ~ 60 Invited Papers in 12 Sessions (10 joint)
 - 151 Contributed Papers (Washington, 2001: 109)
- ▷ DPF2002 (William & Mary)
 - 510 participants, 410 talks
 - Youth! Marc Sher!
- ▷ Many representatives from DOE and NSF program offices at both meetings. Thank you!

Mark Your Calendars!

- ▷ 2003 Joint DPF / APS April Meeting
(Philadelphia, April 5 – 8)
Show the vitality of particle physics to our colleagues in other fields; learn what excites them
- ▷ Sally Dawson plans 10 Invited Sessions
Special Session at University of Pennsylvania Art Museum: “Future Wonders of Particle Physics”
- ▷ DPF / DCMP at March Meeting in Austin
- ▷ Symposium at AAAS03 in Denver, February 15
